From the Chairman & Managing Director's Desk

It gives me immense pleasure to share the joy of seeing "MY BPC" emerging out as a centre of excellence which we all know was under extreme state of downturn at one time. Now that it has been rescued from turbulence we need extra efforts which I observe is not commensurate with desired levels. We need to put our might to maintain its good name which we have earned in last five years.

Order book, delivery & quality are essence of our operation.

Its high time we have to look for ways to cut down manufacturing costs, misc. expenditures & thus reduce economic risks in the interest of better profitability & returns.

Today as we rejoice the present powerful position of "MY BPC" likewise we also rejoice the freedom of our nation INDIA . Let's all celebrate it & let us all strive hard to be worthy of it.

गुदगुदाहट

Humour

A Junior engineer, a Senior engineer and their Project Manager were on their way to a meeting. On their way through a park, they came across a wonder lamp. They rub the lamp and a ghost appears. The Ghost says, "Normally, one is granted three wishes but as you are three, I will allow one wish each." So the eager Junior engineer shouted, I want the first wish. I want to be in the beach, on a fast boat and have no worries. "Pffffff and he was gone." Now the Senior engineer could not keep quiet and shouted "I want to be in a place with plenty of food and cocktails." "Pffffff and he was also gone." The project Manager calmly said, "I want these two idiots back in the office after lunch at 1.30pm."
